DSG In The USA

DSG in USA offers a logistics service in every major city and port in North America. We have spent the last 10 years developing our presence in the USA and now transport more than 9000teu of sea-freight and 6000tons of Airfreight annually. Through our network DSG has shipments moving through our central hubs of New York, Norfolk, Charleston, Savannah, Houston, Oakland, Los Angeles and New Orleans. Our network enables us to provide trucking or rail options to any location within the US. We also have access to strategically located warehousing facilities enabling our customers to consolidate smaller cargo shipments with our own cargo to Europe delivering cost effective pricing and a premium service option.

Local Expertise

DSG represents two of the major global shipping lines in Ireland and along with our Freight Forwarding department we have established an extensive understanding of the USA to Europe Trade route. Customers can depend on our knowledge of local customs regulations and our experience to deal with a complex range of distribution channels to get their products to their clients on time.
