DSG In Asia

DSG in Asia offers a network in every major city and port in China, South east Asia and India.

We have spent the last 12 years developing our presence in Asia and now transport more than 15,000teu of sea-freight and 10,000tons of Airfreight to all over Europe, USA and intra-Asia annually. Through our network DSG can offer Air Freight, Sea Freight, Road Transport, warehousing, and tracking facilities.

Our objective is to make our customer feel secure in the knowledge that we can bring their product from any supplier to their door in a timely, cost effective and professional manner.

Local Expertise

Because we have our own personnel on the ground in Asia, you can depend on our knowledge of local customs regulations and our experience with extensive distribution networks to get your products to your clients on time.
