About DSG Contract Logistics

You tell us what you need - DSG Industry experts develop, implement and manage solutions that streamline your supply chain requirements. With an outsourced supply chain, DSG will free you to focus on your core business activities and reduce or eliminate your capital spending in non-core areas. Our logistics expertise and sector knowledge is there to help you meet increasingly demanding cost and performance targets.

Enjoy certainty and reliability while we fast-track your inventory through the supply chain; you will have more time to think about what you do best.

Our contract logistics services will help you:

- Reduce assets and increase financial returns
- Improve inventory control
- Deliver advanced customer service and quality.

DSG has industry specific understanding from healthcare and high tech to retail and Industrial, we know your businesses logistical requirements.

How DSG Manages Your Supply Chain

DSG works alongside its customers to tailor a range of flexible value-added services to meet specific business needs. DSG handle complete control of the flow of goods, communications and finances so you don't have to.

Value added capabilities we can offer you:

- Order fulfilment; including pick and pack
- Distribution of orders throughout the world
- Warehousing in secure, best practice facilities
- Inventory control; including stocktaking and reordering
- Packaging and labelling for various and specific markets
- Logistics consulting and facilities management

Benefits

- Allows client to focus on its core business demands
- Automates purchase order management and booking process
- Enhances management control and visibility
- Reduces supply chain costs
