DSG In The East & Black Sea

DSG has had strong ties with the East Mediterranean and Black Sea region for many years. We have built an impressive network not only through our Freight Forwarding division but also as liner agents between this region and Ireland over the last 30 years.

As agents for two global shipping lines, DSG for many years had a weekly vessel service from the major ports in this area direct to Dublin, Ireland. Our customers and also our competitors understand that we are one of the market leaders on this trade route and because of this they come to DSG to enable them to develop their own business relationships in this part of the world.

Local Expertise

Our team has over 60 years experience altogether dealing with the various countries in this region so we understand their local customs and regulations for doing business.

Our network is well established and it is our knowledge of the routes, services and market freight rates that enables us to offer our customers the very best in service and price.

What We Offer In The East Med & Black Sea

DSG currently imports and exports, 20', 40', 45', reefers and special equipment to and from all areas in the East Med & Black Sea.
